GB15Thai Conference

20-22nd February 2015

Novotel Bangkok on Siam Square, 392/44 Siam Square Soi 6, Bangkok 10330, Thailand.

The Inaugural Session (first day of the conference) is on 21st February 2015 at 9.00 am.

(Please note that there is no event or programme on 20th February, Friday). This day is meant for arrival and settling in).

Dear & Distinguished Delegates!

Hearty Welcome!

I am delighted to extend a warm welcome to Bangkok, Thailand which is one of the finest tourist destinations in the World.

We are immensely pleased to present this International Conference on Global Business, Economics, Finance and Social Sciences in Bangkok, Thailand.

Bangkok, indeed, is a very vibrant global city with a very rich cosmopolitan outlook. It is a busy city with multiple shopping arcades, gourmet restaurants, nightclubs and interesting sightseeing attractions.

Bangkok has a Rich Culture!

Bangkok began as a small trading centre and port community on the west bank of the Chao Phraya River some 200 years ago. Today, while the city is up to speed with modern times, the grandeur and glory of its illustrious past still prevails. Be it dazzling temples, spectacular palaces, a world-famous floating market or colourful Chinatown, each of these attractions has an intriguing story to tell. Of course, you have many other tourist attractions in Bangkok. The Temple of Dawn, The Grand Palace, Wat Pho, Chao Phraya River, Chatu Chak Week-end Market, to name a few. The local people in Thailand are very meek, friendly and helpful.

Thailand! A New Industrialized Country!

Thailand is a new industrialized country with exports contributing to two-third of the GDP and is the second largest economy in South-East Asia after Indonesia. The World Bank has recognized Thailand as 'one of the great development success stories' (World Bank Report (<http://www.worldbank.org/en/country/thailand>)). The statistics further indicate that while the unemployment rate is a meagre 0.9%, the inflation rate is very low at 2.2%.

The Theme: Sustained Economic Growth in Asia! Progress & Challenges!!

The United Nations (UN) has chalked out eight international development goals following the Millennium Summit in the year 2000, which is popularly known as Millennium Development Goals (MDGs). Eradication of poverty, achieving universal primary education, promoting gender equality and women empowerment, ensuring environmental sustainability are the major goals, among others.

Some Important Issues and Agenda before the Asian Economies!

Asian economies have the potential to grow rapidly and reduce global poverty provided some concrete steps are being initiated on a war-footing in the Asia region. Let's analyze some of the issues. As we are aware, the mother earth is still suffering from many prolonged issues and problems. A little closer to 20% of the global population lives on less than \$1.25 per day. A considerable amount of population (173 million) suffered from hunger in 2011-2013. In 2013, each day, 32,000 people abandoned their homes due to conflict. (Source: The Millennium Development Goals Report 2014, UN).

Unfortunately, many species face extinction; marine and eco-system need to be protected. Areas such as child nutrition, mortality, maternal mortality and enrolment in schooling should be addressed on a war-footing.

In addition, the other major economic issues to be addressed include the following: Financial system instability, Eurozone fragility, persistent structural unemployment, economy driven social unrest, fiscal imbalances in many economies, internet governance, emerging economic powers from the developing economies etc.,

GB15Thai Conference – A platform to share your thoughts!

Against this backdrop, the International Conference on Global Business, Economics, Finance and Social Sciences being organized jointly by the Global Business Research Journals (GBRJ) and SDMIMD, Mysore, India, provides an ideal platform for academicians/researchers to share their insights and views to improve the global economy and alleviate the sufferings of global community. Investments should be channelized to the productive sectors of the economy, to start with. Once this is done, creation of wealth and employment generation would take place in a phased manner. We are doubly happy that this conference provides an opportunity to network with leading researchers, renowned economists and academicians from across the globe.

A warm welcome to you again! We are pretty sure that you would have a pleasant and memorable trip to Bangkok, Thailand.

My special thanks to every one of you for your valuable presence and participation.

Best regards,

Dr. Elango Rengasamy,

Conference Director,

International Conference on Global Business, Economics, Finance and Social Sciences
(20-22nd February, 2015)

Novotel Bangkok on Siam Square, 392/44 Siam Square Soi 6, Bangkok 10330, Thailand.
